

To enjoy the benefits of your AQUA ENERGIZER™, it must be installed by a licensed plumber. Installation by anyone other than a licensed plumber voids the warranty.

AQUA ENERGIZER™

Shower Device

Installation Instructions

Specifications

Weight: 1 lb 2 ounces

Length: 5 3/4 inches

Materials: Copper, Quartz, Minerals

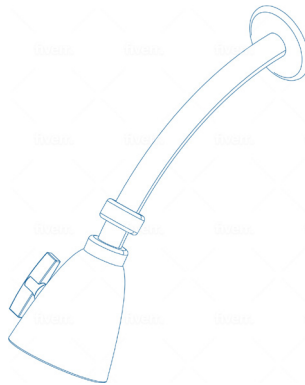

Water Pressure: Approved for up to 80 psi

Fittings: 1/2 inch male and female pipe threads

This AQUA ENERGIZER™ device is equipped with standard 1/2 inch male and female pipe threads. Thread seal tape (aka plumbers tape) may be needed for installation.

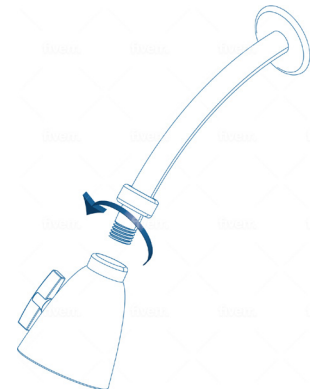

Step 1

For easy attachment identify the water pipe leading to shower hose.

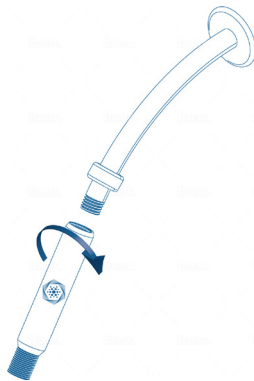

Step 2

Twist the showerhead (pictured) or hose counter-clockwise until it has been completely disconnected.

Step 3

Attach the AQUA ENERGIZER to the supply line and rotate it clockwise until the fitting is snug. (Plumbers tape may be needed to wrap the male threads side of water supply line).

Step 4

Reattach the hose or shower head to the male end by twisting clockwise until snug. Plumbers tape may be needed.
